

## Advertising Umbrellas

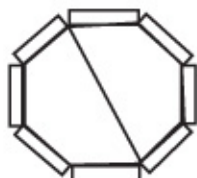

Festive and practical, advertising umbrellas are eye-catching publicity tools. Offering protection from the elements as well as a colorful and attractive addition to any outdoor event or restaurant patio. ProMo Colors quality and durability ensures that your umbrella design will grab attention and boost your advertising efforts to the next level.

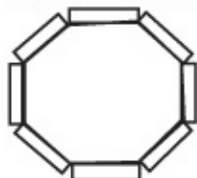

**standard**

**duo-cover**

**mono-cover**

Using the latest technology and newest techniques, your name or band is printed with the highest color integrity and reinforced with weather resistance tools to keep it looking new. Your advertising message can be displayed on one of our umbrella styles (see Left). As well as printing on the cover sections and the flounce, we also offer the monocover, which displays your design over the entire umbrella surface without interruption, or the duocover which features your logo on both sides of the umbrella.

ProMo Colors Offers Three Top-Quality Umbrella Fabrics:

**Raytex Twinface DM/C:** A woven 100% polyester textured fabric, this non-translucent weave is well suited for detailed printing and full color presentation, This mold and rot proof fabric offers reverse imaging on the underside.

**Raytex Twinface 150/220:** Durable and attractive polyester weave that is perfect for both medium and large umbrella covers.

**Caspar 200 FP:** Perfect for fine detail printing, this cotton flat binding features a mold resistant finish.

We offer umbrella frames and supports made from steel, aluminum or fiberglass with a variety of styles in 14 colors.
